# Sagar Kar

7002086905 (M) || sagarkar10@gmail.com || sagarkar10.github.io

# **EDUCATION**

# **NOLOGY. SILCHAR**

B.Tech - Computer Sc. & Engg. 2014 - 2018 | CGPA: 8.07

#### SRIMANTA SHANKAR CADEMY, GUWAHATI

HIGHER SECONDARY | SCIENCE 94.2% | Board: CBSE

#### **CERTIFICATES**

Machine Learning Foundations: A Case Study Approach by University of Washington view Machine Learning by Stanford University view

Neural Networks and Deep Learning by deeplearning.ai view Intro to Machine Learning: Google AWS Machine Learning Natural Language Processing with Deep Learning

### TOOLS

- Python Solr SQL
- TF Keras SKLearn OpenCV
- Docker Kubernetes Unix
- ... Et Cetera

# **FRFFI ANCING**

#### • Gamut Analytics | Resume

Classification: Worked on NLP and Paragraph Segmentation to classify and rank resume based on predefined criteria using MNB, SVM, Decision Trees, and CNN.

- Cheruvu | Soil Analysis and Crop Yield **Prediction**: Worked on Data analysis, Forecasting with ARIMA and ANN to predict soil composition.
- Scribie | Audio Transcript Parser : build the parser and sanitizer models using NLP, BRNN, etc. which became the base for the training database for auto-transcriber.

#### INTERESTS

- DevOps Gesture/Image recognition

#### SUMMARY

NATIONAL INSTITUTE OF TECH- Self-driven and highly motivated data science professional with experience in Deep Machine Learning, Predictive Data Analysis, DevOps and Full-stack development. Expert in Unix, experienced in python AI/ML stack for production level contribution. Good understanding of software architecture and looking for more challenging roles.

# **EXPERIENCE**

#### **SENSE** I LEAD MACHINE LEARNING ENGINEER

December 2021 - Present | Remote

- Building state-of-art candidate to job matching pipeline for the staffing industry for quicker turn around on recruitment, which is expected to reduce agent involvement by more than 60%.
- Building pipelines used by ML backend for recruitment **Chatbot**
- Advancing legacy platform towards a microservice based architecture while being more ML friendly for quick cycles of modeling and development in general.

#### **UNBXD** | Machine Learning Engineer

August 2020 - December 2021 | Bangalore, KA

- Learning to Rank Modelling Ranking systems to score based on LambdaRank and LambdaMart using behavior specific and clickstream data.
- Worked with **Data Pipelines** Creating reusable and robust data and process pipelines to be used as kubeflow spark components

#### **INSIDER.IN** | Machine Learning Engineer

April 2019 - August 2020 | Mumbai/Bangalore

- Dynamic Pricing statistical model to predict and affect event ticket pricing based on live demand and previous trends.
- Recommendation System for event space having highly volatile items.
- Worked with Named Entity Recognition using NLTK and RNN to extract event details from event banner and posters.

#### **SIGTUPLE** | AI ENGINEER

June 2018 - April 2019 | Bangalore, KA

- Microscopic Video analysis and modeling for particle detection and cell tracking using Deep-CNN to report and classify disease with Human level accuracy.
- ELT. EDA. and visualization of various medical data for R&D to recognize. analyze and solve domain-specific or hardware-specific challenges.

#### **NOTIONINK | DNN and AI INTERN**

May 2017 - July 2017 | Bangalore, KA

- Build D-CNN models for low-end CPU's to replicate bench-mark results and recorded almost 13% more efficiency with code CPU intrinsic optimization using open source Intel-Math Kernel Library and ARM-Compute libraries.
- Implemented Darknet's **YOLO** for ARM's v8 architecture (for x15 and Raspberry Pi), with cross-platform support for Intel's quad-core.

#### PRICEBOARD.IN | DATA SCIENCE AND DEVOPS INTERN

• Data-Science • Big-Data • Deep-Learning May 2016 - July 2016, Dec 2017 | Guwahati, Assam

- Contributed and monitored the open source data manipulation/visualization project AWS-ELK-BILLING (click here) and managed 100 stars in GitHub.
- Worked on Elasticsearch to increase the product search accuracy and also implemented Collaborative Filtering for product recommend-er system.
